

SARA LITE

THE VERSATILE BASIC STANDING
AND RAISING AID

...with people in mind

A NEW MEMBER OF THE SARA FAMILY

This new standing and raising aid is designed to fulfill basic needs for a versatile, easy-to-use active lift. By combining contemporary design and exceptional value, *SARA Lite* offers an attractive solution, visually and economically. *SARA Lite* is a valuable asset for enhancing quality of life in long term and acute care facilities. *SARA Lite* joins *SARA 3000* and *SARA Plus* to complete the comprehensive range of ArjoHuntleigh standing and raising aids.

Handles

A reassuringly secure grip for the resident during raising / lowering.

Dual controls

Enables optimum working position and close contact with the resident at all times.

Leg & knee support

The soft leg support / kneepad can be adjusted both vertically and laterally to ensure individual comfort.

Knee strap

Provides extra stability or firm support when a resident cannot fully control leg movements.

Chassis legs

The powered adjustable chassis legs can be opened to provide better access to a wheelchair, day chair or toilet.

Footboard

The footboard's black plastic covering has anti-slip properties that improve the resident's footing and increase safety.

SIMPLY ENHANCING QUALITY OF LIFE

Patient Handling routines with a lighter touch

SARA Lite is a battery-powered standing and raising aid designed to raise and lower semi-dependent residents for transfers and toileting. The lift can be operated safely and efficiently by a single caregiver. Weighing just 59 kg *SARA Lite* is an easy-to-use patient handling solution with the flexibility to benefit a wide range of care settings.

Resident benefits

- **OPTIMUM STIMULATION** – *SARA Lite*, intended for semi-dependent residents like *Carl* (see back cover), helps stimulate and maintain mobility for as long as possible.
- **FULL SUPPORT** – Transfers are performed safely and gently with full support. The sling with a double-fastening chest strap maximizes resident comfort and confidence.
- **EXTRA SECURITY** – If a resident requires additional security, the knee strap ensures that the knees are positioned safely and correctly.

Caregiver benefits

- **SAFER HANDLING** – *SARA Lite* makes the caregiver's everyday patient handling routines easier and safer, as no manual lifting is needed.
- **ERGONOMIC ROUTINES** – Every aspect of the machine is ergonomically designed to ensure ergonomic and comfortable working postures.
- **IMPROVED EFFICIENCY** – Transfers to and from the toilet, chair, edge of the bed or wheelchair can be performed efficiently under handset control.

PRODUCT SPECIFICATIONS

Space requirement

- Blue area shows the minimum working area required for the staff to be able to use the mechanical aids in an ergonomic way from one side.
- Light blue area shows required extension of working area to facilitate activities from either side to provide adequate access for the resident, mechanical aid and assisting carer.

Mobility Gallery

Suitable for Carl

C Carl, who sits in a wheelchair and has little capacity to support himself

Please contact ArjoHuntleigh for further information on the Mobility Gallery™.

Product information

Max. safe working load	175 kg (385 lbs)
Weight	59 kg (130 lbs)
Total length	949 mm (37 3/8")
Min. lifting height	1030 mm (40 5/8")
Max. lifting height	1628 mm (64 1/8")
Total height	1200 mm (47 1/4")
Height of chassis	113 mm (4 3/8")
External width legs closed	639 mm (25 1/8")
Internal width legs open	820 mm (32 1/4")

Low friction castors, the rear two with brakes

Battery 24V 4Ah

One (1) battery and one (1) charger are supplied with each Sara Lite

Protection class Lifter IPX4
Handset IPX7

Battery Discharge Indicator (BDI) – Displays remaining power and indicates when the battery needs charging

Service meter – Displays the total motor usage time

Emergency stop and system failure override
