FREEDOM OF EXPRESSION

As unique as you are, the Street is perfect for those living in an urban environment. The Street has a top speed of 7.5 mph making it easy to zip through the city. Designed to flexibly handle narrow and awkward spaces, the 4-wheel adjustable independent suspension system provides a smooth, comfortable ride. The suspension is also visible, giving the Street a stylish and powerful look. Plus, the center of gravity tilt system with recline keeps you balanced over your center of gravity for a new level of confidence. With standard rear-wheel drive, the Street separates you from the rest of the crowd.
