

## SerenaSeat

An exceptionally solid, fold down shower seat with a slim profile that features the beauty and resiliency of Brazilian walnut. Removable backrest allows access to wall tiles for easy cleaning.

### Features and Benefits

- **Brazilian walnut seat.**

Beautiful Brazilian walnut is naturally resistant to moisture, mildew and decay. Known for its considerable strength, it is up to 3 times stronger than teak.

- **Fold away storage.**

Simply fold up to store out of the way. No need to lock into place, a machined precision tension hinge prevents the seat from inadvertently falling down.

- **Slim profile.**

In fold away position, the low profile frame and discreet design complements accessories without being intrusive.

- **Incredibly solid.**

Two 15" concealed wall mount braces maximize wall contact and spread the weight-bearing surface for an exceptionally solid feel.
