

Xplore a new level

QUICKIE® Xplore

Xplore a new level of quality with the latest addition to the Quickie family, the new Quickie Xplore. Entirely made in Canada, this new rear-wheel drive power wheelchair offers more flexibility, control and safety for the end user. Available in compact or full size, your choice of several options makes real customization possible. The Quickie Xplore is adjustable to the real needs of the end user, not the other way around.

improving people's lives

Rear-Wheel Drive Power Wheelchair

The stable maneuverability of the Quickie Xplore revolutionizes the expectations of a power wheelchair.

New!

GC³ Technology

The new Quickie Xplore offers

1. Gravity control: The independent suspension stabilizes the seat in downhill and uphill transitions, to keep the user comfortable in their chair.
2. Ground compensation: While riding over uneven surfaces, the hard movements and vibrations are controlled and not absorbed by the seat or user.
3. Gravity compensation: The unique suspension will distribute the weight over a larger footprint and improve the stability.

New!
