

pilot

The Snug Seat Pilot is a special needs high-back booster seat designed to fit a growing child up to 120 lbs

The Snug Seat Pilot is equipped with a positioning vest to provide torso support, an abductor for proper leg positioning, lateral chest positioning pads for a snug fit, and a seat extension kit for added growth.

As a fixed-position booster, the seat's integrated LATCH connectors and a front adjuster allow for a safe and secure installation in seconds. The seat bottom has extra length for leg support and features thick AirTek™ foam and tapered sides for total comfort. The Pilot packs flat for convenience and travel.

Easy adjustments

Expandable seat back width fits shoulders up to 20". 11 position headrest, adjusts up to 6.5" with one hand. Included seat extension kit provides an additional 4" of leg length growth

4-Point Vest

Adjustable four-point vest for upper body control

Abductor

Two position abductor to control leg positioning

Protection

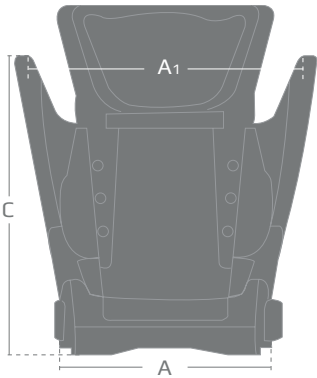

Side Impact Protection with reinforced sidewalls and headrest lined with EPS foam

Standard

The Pilot is available in one size
