## Wrist Orthoses

---

### Manu Neurexa

The Manu Neurexa stabilises the wrist and hand in a neutral position. Perception of both body parts is enhanced, promoting active movement.

---

- Supports and stabilises the wrist
- Relieves pain
- Promotes activity
- Discreet orthosis with an attractive design
- Comfortable to wear
- Temperature-regulating characteristics

☐ Yes, I want to know more

---

### Rhizo Forsa

Light, slim and skin friendly, the Rhizo Forsa Thumb Orthosis stabilizes the metacarpophalangeal and carpometacarpal joints of the thumb without restricting your everyday activities.

---

- Stabilises the MCP and CMC joints of the thumb
- Easy to use
- Low weight
- Slim design
- Skin-friendly, pleasantly soft material
- Attractive design in a modern colour

☐ Yes, I want to know more

---

## Manu Rheuma Flex

Manu Rheuma Flex provides effective relief, especially for rheumatic diseases. It supports and stabilises the wrist. You can enjoy a more active lifestyle again.

---

- Made of soft, breathable material
- Easy to use due to the O rings
- Straight model
- Supports and stabilises the wrist with a volar splint
