since 1997

It Grows

Because children grow so fast, the Prodije Stander is adjustable both in width and height to provide comfort as they grow.

It Reclines

The locking gas cylinder mechanism allows for easy angle adjustment from 0 to 90 degrees without any danger for the child.

It's Adaptable

SUPINE

The unique aluminium frame concept allows for either a prone or a supine positioning depending on the needs of the child.

PRONE

The Difference

Easy to disassemble

In a split second, the stander separates into 2 sections thereby reducing the weight and facilitating transportation without losing or modifying the initial adjustments.

The Prodije stander is a high quality product, resistant and appealing.

A refurbishment is possible at an affordable price. Please contact an authorized distributor for more information.

Baby Stander

Maximum Floor/head Height : 87 cm (34")
Maximum Weight : 23kg (50 lbs)
